Come to my rescue and
Stars are falling down
Only take me by the way
Leave me by all love to the places
That i have never been
Try to understand
Hold when i am all alone
When i am sad when
I need your help take me away
Now dont let go leave me alone
Let me see life just let me know
Come to my rescue and
Stars are falling down
Only take me by the way
Leave me by all love to the places
That i have never been
Save me from my heart when i am down
When i am feeling low when i am girl
When i have no place to go
Take me away take me where no
Dont let me go leave me alone
Let me see life just let me know
When i am cold when i am all alone
When i am sad when
I have no place to go
When i am dying when
I am feeling low
When i am low when
I have no place to go
So come to my rescue
Come to my rescue
Come to my rescue
Come to my rescue
Come when i am dying
Come to my rescue
Come to my rescue when im cold
Come to my rescue when im sad
When i need your help when im cold
Come to my rescue so
Come to my rescue.
