Dr cabbie, dr cabbie hurry up!
I m at home, i m at home
It s an emergency
Dr. Steve burning up
And i m all alone
And you re the remedy
Temperature is rising and i just can t stand it
Time is running out for you to set me free!
Dr cabbie, dr cabbie
Can you fix me, fix me up right now
Pick me up right now
Dr cabbie, dr cabbie
Can you fix me, fix me up right now
Pick me up right now
Girl you re my desire
The fire is burnin higher
Your body is calling me
Your body is calling me
Girl i can t take no more
Girl i can t wait no more
I m yours, i m yours
Dr cabbie can you pick up your phone
I think it s serious
Too much of your love and now i m overdose
I m so delirious
Temperature is rising and i just can t stand it
Time is running out for you to set me free!
Dr cabbie, dr cabbie
Can you fix me, fix me up right now
Pick me up right now
Dr cabbie, dr cabbie
Can you fix me, fix me up right now
Pick me up right now
Girl you re my desire
The fire is burnin higher
Your body is calling me
Your body is calling me
Girl i can t take no more
Girl i can t wait no more
I m yours, i m yours
I need a doctor can you please
Rescue me from all this pain
My heart is broken and i need
You to help me love again
You to help me love again
You to help me love again
Temperature is rising and i just can t stand it
Time is running out for you to set me free!
Dr cabbie, dr cabbie
Can you fix me, fix me up right now
Pick me up right now
Dr cabbie, dr cabbie
I hear you calling me
I m your, i m yours
