1 in 2 equal to probability of hand 3  
And given hand into probability of hand 4  
Given 1 and 2 into probability of hand 5 given hand 1 and 2...  
Paisa kya hai sirf ek number na  
Galat, bhuk hai paisa, bhuk  
Jindagi ki hai baaji, saanson ki hai yeh chaal  
Dil ne saajish rachi hai khaabon ka, yeh jahaan  
Anginat khwaashon ki jal rahi hai mashaal  
Pyas itani badi hai na koi hai misaal  
Koshish hai jaane kaisi, kya hoga  
Because life is game, that is so strange  
You never know how rules may change  
Hai nasha khel ka, yeh jindagi ki hai ada  
Playing the game, playing the game  
Tumhe kya lagata hai, yeh jo jivan tum log ji rahe ho  
Yeh koyi, yeh koyi khel hai  
That its a bludy game  
Chaahe galati ho chhoti, par badi hai saja  
Khel hi hai magar, yeh hai sirk khelana  
Jitana jindagi hai, haarana maut hai  
Jaane kismat kya hai khud ko aajama  
Rang naye dikhaaye har ek lamaha  
Because life is game, that is so strange  
You never know how rules may change  
Hai nasha khel ka, yeh jindagi ki hai ada  
Playing the game, playing the game  
Jo hai woh nahi hai, aur jo nahi hai woh ho sakata hai  
Ha ha ha... i  
m gonna keep on playing the game  
Sab khel hai, khel hai baby, i tell you
