Hold me let me feel u in my arms again
Softly u whisper my life, my best friend
A moment is all i m searching for,
Just a moment in luv wid u
A moment so special so beautiful
In a moment my wish come true
Save me from the future,
Take me back in time
The words they have no meaning,
Without u in my life
Let me walk the rainbow,
In times of sweet surprise
Toh when i was a little girl,
And i had u in my life
Time has no answer,
For words left unsaid
For words have no meaning,
There s no read ahead
A moment is all i am searching for,
Just a moment in luv wid u
A moment so special so beautiful,
In a moment my wish comes true
I am looking for a reason
To smile once again
Through every changing season,
The pain i can t explain
I see the magic all around,
Shining down on me
Wid u my life would be so right,
If only it could be
May be this world iss a mystery to me
May be this world iss a mystery to me
But if u could be here for eternity
A moment is all i m searching for,
Just a moment in luv wid u
A moment so special so beautiful,
In a moment my wish come true
A moment is all i m searching for,
Just a moment in luv wid u
A moment so special so beautiful,
In a moment my wish come true
My wish comes true.
