Ho o ho, o ho ho
Ho o ho, o ho ho
Ho o ho, o ho ho
Ho o ho, o ho ho
I am nothing without you baby
You know i am nothing without your love
I am nothing without you darling
Know i am nothing without your love
You re the wind in my sails darling
You re the air that i breathe
You re the sunshine in my life girl
You love makes me complete
You re my hope and you re my reason
You re the blue, girl, in my sky
You to me are my tomorrow
It s your love that makes me fly
Without you girl i just can t go on
Without you i know i am done
When i am with you my life has meaning
When i am with you my life has song
You make everything seem easy
You make everything so clear
You the anchor in my life baby
You re every breath i breathe
You re my hope and you re my reason
You re the blue, girl, in my sky
You to me are my tomorrow
It s your love that makes me fly
I need you now baby
I want you so bad
I really need your love baby
I need your love
I need your love
I need your love
You re the wind in my sails darling
You re the air that i breathe
You re the sunshine in my life girl
You re every breath i breathe
You re my hope and you re my reason
You re the blue, girl, in my sky
You to me are my tomorrow
It s your love that makes me fly
You re my hope and you re my reason
You re the blue, girl, in my sky
You to me are my tomorrow
It s your love that makes me fly
So please love me, please just hold me
Let your love make me complete.
